NOTIFICATION NUMBER: CIB N301A

REVISION: B

## **1. Planning Information**

---

### **1.1 Compliance**

As required

### **1.2 Description**

Parts list contained in the SM45 maintenance manuals do not contain finished faceplate part numbers, they only contain the blank faceplate part number.

### **1.3 Applicability**

Affects Part Number N301A-000, -015, 016, -017, -030, -032, -057 & -071, requiring replacement of the faceplate.

### **1.4 Reason**

N301A is a product that was originally designed and manufactured at Northern Airborne Technology in Kelowna, British Columbia Canada where they had the equipment to manufacture faceplates in house, therefore their parts list contained the blank face plate and drawing in order to build the finished faceplate. The parts lists have not been updated with the finished faceplate part numbers for use here at Cobham Aerospace Communication- Prescott.

### **1.5 Approval**

Does not affect the original approval.

### **1.6 Recommendation**

It is recommended to use the table below when it is necessary to order and replace a faceplate for the specific derivative of concern.
