

# INFORMATION BULLETIN

NAT Part #: 270-001

Information Bulletin #: 0001

Description: **Universal Interface Amplifier**

Document #: **SM270\609-0001**

Prepared By:	NAT 285	Checked By:	NAT 226	NAT 255	DE 01	Approved By:	NAT 114
--------------	------------	-------------	------------	------------	----------	--------------	------------

## 1.0 Applicability

This information is applicable to the 270-001 s/n's 1040 – 1042 and 1105 – 1114.

Units s/n 1115 and greater will have the correct input audio levels implemented as factory standard.

## 2.0 Reason

It has been determined the above s/n's had incorrect input audio level settings.

## 3.0 Action

All above units need to be returned to NAT for re-alignment as per DCS Doc # 270-001\001-0 Rev 1.20 or later.
